The Fund is an Australian registered managed investment scheme which was constituted on 10 December 1996 and will terminate in accordance with the provisions of the Fund’s Constitution or by Law.

The Responsible Entity of the Fund is K2 Asset Management Ltd (ABN 95 085 445 094) (the “Responsible Entity”). The Responsible Entity’s registered office is Level 44, 101 Collins Street, Melbourne, Victoria, 3000. The condensed interim report is presented in the Australian currency unless otherwise noted.

The Fund invests in equity securities of leading global companies from developed and emerging markets and other investment instruments as permitted by the Product Disclosure Statement and the provisions of the Fund’s Constitution.

2 Basis of preparation of interim financial statements

The condensed interim financial report for the half-year ended 31 December 2023 has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

This condensed interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2023, any public announcements made in respect of Apostle Dundas Global Equity Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and the current Product Disclosure Statement.

This condensed interim report was authorised for issue by the Directors on 26 February 2024.

(a) Material accounting policies

Except as disclosed in the financial report for the year ended 30 June 2023, there were no new accounting standards, amendments and interpretations that are expected to have a material impact on the financial statements.

The material accounting and risk management policies and practices adopted in the preparation of the financial statements are consistent with those followed in the preparation of the Fund’s financial statements for the year ended 30 June 2023.

3 Fair value measurement

The Fund measures and recognises the following financial assets and liabilities at fair value.

- Financial assets at fair value through profit or loss (see Note 4)

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and listed equity securities) are based on last traded price at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

3 Fair value measurement (continued)

(a) Fair value in an active market (level 1) (continued)

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the reporting date. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the reporting date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

(c) Recognised fair value measurements

The tables below present the Fund's financial assets and liabilities measured and recognised at fair value as at 31 December 2023 and 30 June 2023.

As at 31 December 2023	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

Listed equity securities	<u>2,137,770</u>	-	-	<u>2,137,770</u>
Total	<u>2,137,770</u>	-	-	<u>2,137,770</u>

3 Fair value measurement (continued)

(c) Recognised fair value measurements (continued)

As at 30 June 2023	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss				
Listed equity securities	<u>2,052,347</u>	<u>-</u>	<u>-</u>	<u>2,052,347</u>
Total	<u>2,052,347</u>	<u>-</u>	<u>-</u>	<u>2,052,347</u>

(d) Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy for the half-year ended 31 December 2023 and year ended 30 June 2023. There were also no changes made to any of the valuation techniques applied as of 30 June 2023.

(e) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(f) Financial instruments not carried at fair value

The carrying values of receivables and payables approximate their fair values due to their short-term nature.

Net assets attributable to unit holders' carrying value differs from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior reporting periods.

4 Financial assets at fair value through profit or loss

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are three separate classes of units as at 31 December 2023 (31 December 2022 - three classes of units). Each unit has the same voting rights as other units, irrespective of the classes. Each unit class has a different management fee rate. Class D units are listed on ASX.

Units are redeemed on demand at the unit holders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

On the Statement of interim cash flows, proceeds from applications by unitholders incorporate application funding received from unit holders and also the value of units issued upon reinvestment of distributions, while distribution paid includes the cash distribution portion only.

5 Net assets attributable to unit holders - liability (continued)

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Scheme's financial position as at 31 December 2023 and its performance for the Interim Period ended on that date and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
